Editorial

Dear chaverim and chaverot of the Hanoar Hatzioni Family worldwide,

Last year I had the privilege of assuming the position of CEO (Mazkir Clali) of the worldwide Tnua, after several years in which I held various positions in it. As someone who grew up in Hanoar Hatzioni, there is no greater pride than being at the forefront of the movement and leading it. After several years of Tnuati work, and as someone who knows it well, it is fascinating to see its development over the years. On the one hand, there is a lot of similarity between the Tnuati then and today, the spirit, the pioneering, the values, the commitment of the tzvatim of madrichim and madrichot, and the impact it creates in the lives of many young people around the world. On the other hand, many things have changed over the years and continue to change before our eyes in a very dynamic reality. Youth movements in general, and Hanoar Hatzioni in particular, must adapt to this reality and always be at the forefront of Jewish-Zionist education in the Diaspora and find ways to be relevant.

The last few years have been full of challenges faced by the Tnua in Israel and around the world, including the Covid crisis and its results, which required all teams around the world to adapt programs, making great efforts to enable the continuity of their activities at any cost. In a complex period, full of constraints and obstacles, we were able to lead important processes and even enable a routine in all our programs in Israel and around the world.

Today, we face another challenge, more complex and profound, affecting the Tnua and the entire Jewish and Zionist world. October 7, 2023 is a date that is already etched in the historical consciousness of the entire people of Israel. Many questions have arisen since that date, and we are still trying to find answers to them. Fundamental questions that examine the relationship between Israel and the Diaspora and directly affect the world of Zionist education.

We, as an educational movement, and in the face of these complex issues, see ourselves as a solid and stable bridge linking Israel with many Jewish communities around the world. This “bridge” was built on the basis of the ancient and magnificent infrastructure and tradition of Hanoar Hatzioni for almost 100 years around the world, and on the basis of the values that define the foundations of our educational activity. There is no doubt that October 7th is a turning point in the Jewish world, and the Tnua is positioned at this time as the one who has to “recalculate the course” and enter into a new paradigm in all matters concerning relations between Israel and the Diaspora.

Looking to the future, and understanding the complexity of the era and its challenges, the Tnua must utilize its great potential to influence and connect the various points of Israel and the world. Today, the movement operates in a variety of Jewish communities on all continents of the world, conducts a variety of programs (short and long) in Israel to create a meaningful Zionist experience for many young people, initiates educational projects locally and internationally, cultivates young leadership, cooperates with Jewish schools and, in general, is at the forefront of the Zionist world. “Tnua 360” is an expression that practically illustrates this ability to always look at the existing set of possibilities, creating cooperative relationships, to understand that the Tnua space crosses borders and time, and that sometimes it is appropriate to break old paradigms and create new ones in order to achieve goals and reach our dreams.

As every year, but now more than ever, the Tnua strives to be at the forefront and synonymous with excellence in the field of non-formal education, through the hard and dedicated work of all our teams in Israel and around the world, and through creative thinking, to always be relevant and accurate to the challenges at hand.

I invite you to explore and discover the glorious work of the Tnua around the world, and I hope that each and every one of you will continue to be part of the story we write together.

Chazak Ve’Ematz

Alexander Bitterman
General Director

Our Mission and Vision

Hanoar Hatzioni is a movement committed to shaping a person with Integrity; someone of the values, morals, ethics and attitudes on which our non-formal educational practice is based; a person who identifies and acts in favor of the Jewish people, their history, culture, traditions, and the state of Israel.

As an educational, Jewish, Zionist, Humanist, Liberal and Social youth movement, we aspire to the development of formative processes for our students, based on the ideological foundations that derive from the essential values of Judaism, the Zionist dream and the world's cultural heritage. We recognize the centrality of the state of Israel, as a home where every Jew has the right to be a protagonist, and establish a Jewish life as a norm. We encourage our chaverim to actively participate in the process of ensuring the continuity of our people, while enriching the Jewish, Democratic and Pluralist aspects of our state, as the foundation for the formation of an exemplary society.

Consequently in 1925.

The Emergence

During the years following the First World War, a handful of young intellectuals eager for reforms, adopted critical attitudes regarding the extremist viewpoints and slogans, concluding that there is a need to create a youth movement that would serve as an expression of the diverse conceptions and perceptions within Judaism, placing Zionism as a supreme idea. Consequently in 1925, different groups of Zionist youth were formed in various countries in Europe, in search of a new path that could point the way for thousands of young Jews longing for a coherent answer. The encounter between the sister movements officially culminated with the creation of the World Chalutz Organization “Hanoar Hatzioni” in Lvov on May 25, 1931.

Shimon Peres's (Z"l) Speech
85th Anniversary of Hanoar Hatzioni World Movement

The Contribution to the Israeli Society: Yesterday and Today

During its almost 100 years of existence, Hanoar Hatzioni contributed considerably to the creation of the State of Israel and the consolidation of Israeli society.

Chaverim and chaverot of the Tnua founded moshavim and kibbutzim, which reflected the spirit and values of the Tnua and the ultimate yearning of Hagshama. Today 5 kibbutzim are associated with Hanoar Hatzioni: Hasolelim, Kfar Glikson, Tel Yitzchak, Nitzanim and Ein Hashlosa.

Recently, Kibbutz Ein Hashlosa, located in the vicinity of the Gaza Strip, suffered a serious attack during the massacre of October 7, 2023. Ein Hashlosa, like the other kibbutzim, reflects the spirit of pioneering, connection to the Land of Israel, and the yearning for a just society, core values in our educational platform. Today more than ever our solidarity with the kibbutzim.

Hanoar Hatzioni not only collaborated with the construction of Kibbutzim and Moshavim, but also with educational projects that strengthen society. Thus, the Tnua founded a network of educational institutes with boarding schools, in which thousands of young people from Israel and the Diaspora continue to be educated. These institutes (Neve Hadassa, Havat Hanoar Hatzioni, Alonei Yitzhak and Mosenson Youth Village) are co-owned by Tnua and maintain contacts and collaboration with the Ministry of Education.

Another great contribution to society is the International Center for Holocaust Studies "Massuah", located in Kibbutz Tel Yitzhak, founded in the 1960s by members of Hanoar Hatzioni and Akiva. Its center of study is based on youth movements during the Shoah. Massuah is where the world archive of Hanoar Hatzioni is located, in which dozens of years of educational-ideological activities are documented.

But undoubtedly, our most important contribution was and will be our olim, which explains our project dedicated to them and called BAMA, a support organization for young people who decided to immigrate to Israel. We accompany, assist and advise our olim in their absorption process during their first months in Israel, and we organize social, educational and cultural events.

Map of projects and initiatives

Mazkirut Olamit of Hanoar Hatzioni

The Mazkirut Olamit is the central decision-making body within the organization. It is responsible for managing the general and strategic matters of the institution in order to ensure its proper performance, development and improvement, based on the strictest transparency, honesty and security rules.

Hanoar Hatzioni's Mazkirut Olamit is made up of several work units, which guarantee the integration and synergy of a holistic work in the different levels of action of the worldwide tnuatit. Among these units we can find the regional departments (Latin America, Europe and North America), programs in Israel, Shnat Hachshara Tnuatit, communication, logistics, treasury, Bama and the various programs and initiatives of the Tnua.

In educational terms, the Mazkirut Olamit is responsible for discussing, deciding and defining the pedagogical and strategic path of the organization based on the vision of the movement. This vision aims to ensure that the short-, medium- and long-term educational processes are followed, which will allow us to achieve the goals that we have set as an educational and ideological entity.

The Mazkirut Olamit is an NGO recognized by the State of Israel and the National Institutions. Its president is Joel Montvelisky, Industrial Engineer and MBA from Tel Aviv University. Former boguer of the Hanoar Hatzioni in Costa Rica and the first Rosh Machon Continental Tzfonit in 1993. Married, father of 3 kids, co-founder of an Israeli Hi-Tech company that works worldwide.

Hanoar Hatzioni's Family

Due to the responsibility we have for the Jewish and Zionist education of the youth in the Diaspora as an educational youth movement, we have committed to working together with other movements and communities that share our essential foundations of Judaism and Zionism as ideological dimensions. Based on these ideas, three educational platforms were created in parallel:

Por la responsabilidad que tenemos como movimiento juvenil para con la educación judía y sionista de los jóvenes de la diáspora, asumimos el compromiso de activar en conjunto con otros movimientos y comunidades que comparten nuestros fundamentos esenciales de judaísmo y sionismo como dimensiones ideológicas. En base a estas ideas, fueron creadas tres plataformas educativas en paralelo:

The **HANOAR HATZIONI FAMILY**, composed of our Kenim around the world and those we have called “Sister Tnuot”.

The **MANHIGUT** Project is an innovative educational platform of Judeo-Zionist, humanist and liberal character that provides professional training to future and current leaders of the Jewish community. It has several fields of action (local projects: Manhigut Movil, Manhigut Lelo Gvulot) that guarantee a wide reach to different audiences.

BAMA OLIM B'ISRAEL, is the Olim community of the Hanoar Hatzioni Family.

Pesach Haggadah

Hanoar Hatzioni invites you to join an educative Seder in Family

IRON SWORDS WAR

The Iron Swords War (Hebrew: מלחמת חרבות ברזל - Cherevet Barzel) is a conflict between the State of Israel and the Hamas terrorist organization that governs the Gaza Strip.

It began at 6:30 a.m.

with rockets and land explosions in the city, causing half of the country to run for cover. The alarm sounded in the south and north of the country, and even in Jerusalem and its surroundings.

Among those affected

by the attack was the famous soccer player David Flatau, who plays for the national team. He was in the Gaza Strip of Ramat Hashikma, near the Gaza Strip of Ramat Hashikma, and the Hanoar Hatzioni Hatzioni Barzel Hatzioni.

After controlling the situation

in the area, Israel began its response, attacking terrorist infrastructure and different leaders of Hamas in the Gaza Strip.

On Saturday (Shabbat), October 7, 2023

Israelis and Jewish Israelis, the terrorist organization Hamas started a surprise attack in the south of the country.

After a few minutes,

thousands of Hamas terrorists managed to penetrate the territory by using a heavy smoke, which ended up being the signal for the attack in the south of the country. The attack was carried out by the Hamas terrorists, who were in the south of the country. The attack was carried out by the Hamas terrorists, who were in the south of the country.

Once the threat was understood,

the army began to move in the south of the country. The army began to move in the south of the country. The army began to move in the south of the country.

GVURA HEROISM

GENERAL DEFINITION:

Active, creative, courageous behavior, or outstanding act with the objective of facing danger, an obstacle, or adversity for the good of others.

HEROISM IN ISRAEL:

In difficult times, such as wars, we often hear heroic stories in Israel.

These stories belong to all those people who have carried out acts of heroism for the safety of others.

For Israel and the Jewish People, all our soldiers who contribute to the security of our country represent the concept of heroism and deserve our greatest appreciation.

In these situations, we also meet other people who are not soldiers in the army but are also heroes.

Anyone who takes action to save for those next to them, in this sense, is a hero to us.

Canada

Daniel, was a soldier of Hanoar Hatzioni in Paris. He is remembered as a great Heroism and an example for many.

Years ago, Daniel made a plan, choosing Israel as a place to develop his life and start his family.

On Saturday, October 7, he was murdered by Hamas terrorists in the kibbutz Erez massacre, while he was saving out his work as a doctor, trying to save the lives of the wounded in the kibbutz.

The Heroism and Courage of Daniel Levi will forever remain as in our educational path.

DANIEL LEVI Z'L

Magshim of the Tnuva, represents the highest and most noble Values of our DNA Tnuvati, among them:

Sensitivity of Life	Responsibility
Love of the neighbor	Integrity
Solidarity	Ethics
Mutual Support	Personal Example

May his memory be blessed and his legacy honored forever!

Chazak Ve'emotz!

HOW TO PLAN AN UNFORGETTABLE PEULA?

CREATE Unique, original and particular experience for your Kvutza based on your desires, needs, topics, motivations, etc.

OFFER Practical experience that involves the chavrutah and chavrutah, based on action.

EXCITE Captivate, excite, stimulate, and you will see great results!

SURPRISE Motivate, stimulate, challenge and excite chavrutah and chavrutah to actively seek new things that may catch their attention.

PERSONALIZE Offer different methodological proposals and various resources. In this way, everyone will be able to find their way to get closer to the content and create their own learning.

TRANSCEND Extending the learning of what you experienced to other levels and themes. In this way, you will ensure that the learning, in addition to being significant, is productive.

JIDON HATNUVA

Hanoar Hatzioni as an Educational Platform

Hanoar Hatzioni's Department of Education is responsible for guiding the formative processes of our movement, in charge of guiding the formative processes of our movement based on the values, ideas and principles that characterize us. We offer pedagogical counseling and educational material in the continental, regional and local scope to contribute to the development of each one of our educational platforms around the world.

Our education is based on processes that encourage action, experience and moratorium, learning, intellectual curiosity, the right to doubt, responsibility, commitment, in-depth criticism and independent and collaborative thinking.

We aspire to provide our chaverim and chaverot, with formative education – emphasizing human dignity, freedom of choice, pluralist legacy, teamwork and dialogue between the teacher and the learner – as an essential and fundamental methodology – tools that will allow him to analyze, complexly and seriously, the reality in which he lives.

We aspire to show the youth the world in all its breadth and complexity, convinced that by learning and getting to know it, they would know how to value it correctly. The orientation of our education evokes among our chaverim a critical appreciation of society, transforming them into being capable of assuming independent positions.

Trip to Israel Greece Community, 2023.

Department of Europe and North America

The Department of Europe and North America of Hanoar Hatzioni centralizes the communication between the Kenim of these continents, supervises the educational programs, coordinates the work of the Shlichim, organizes programs in the Kenim and Israel and promotes new educational projects between the Tnuot that form a part of the department.

The department consists of the following Kenim: Hanoar Hatzioni in Hungary (Budapest), Hanoar Hatzioni in Belgium (Antwerp and Brussels), Hanoar Hatzioni in Turkey (Istanbul), Canadian Young Judaea in Canada (Toronto, Montreal and Halifax), Adain Lo in Russia (St. Petersburg), The Jewish Community of Athens in Greece (Athens), Yahad in Spain (Barcelona, Malaga and Melilla) and Dor Chadash in Portugal (Lisbon). We always see the possibility of opening new Kenim and working with new communities.

Each one of the Kenim organizes and leads a large number of activities and initiatives in their cities. Our chanichim have the opportunity of participating in summer and winter Machanot (camps), seminar madrichim, celebrations, ceremonies and festivals of art and music, weekly activities in the Ken and much more.

The Department of Europe and North America leads the contact with the communities, also promoting short- and long-term programs for its members in Israel. The Mazkirut Olamit of Hanoar Hatzioni is committed to the Jewish and Zionist identity of the chanichim of our Kenim and actively participates in many other community projects outside the framework of the Tnua.

MIC 3 (Manhigut International Camp), 2024.

Regional Encounters

SBM EUROPE AND NORTH AMERICA

The Seminar Bogrim Manhiguim (SBM) is an educational training seminar for leaders, held annually and the host city varies from year to year. The communities and Tnuot of the host country, together with the Mazkirut Olamit of Hanoar Hatzioni, are in charge of planning the event.

One of the main objectives of the SBM is the interaction between participants and Tnuot. At each SBM we take the opportunity to learn about the host city and Jewish communal life there. At these events, the networking and joint projects that often arise among the Kenim are the driving force that pushes our movement leaders to build their educational goals for the coming years.

The SBM is attended by delegates from the Kenim that make up the Europe and North America Department of Hanoar Hatzioni, shlichim, professionals and experts in training issues, as well as representatives of the Mazkirut Olamit.

MANHIGUT INTERNATIONAL CAMP (MIC)

The MIC is an international seminar that takes place every year with the participation of the kvutzot of Shnat Hachshara and different delegations of madrichim from all the communities where Hanoar Hatzioni is present.

It is considered the central event of the year in Hanoar Hatzioni since it is the only one that brings together representatives from all over the world. In this unique and special opportunity we can see the strength of the Hanoar Hatzioni Family, where the exchange of ideas and experiences become a common language that strengthens not only the madrichim and kenim, but also the Jewish communities where we are present.

The main objective of the MIC is to strengthen leadership and activism in our young people, working around a central theme that is relevant, current and shared by all, achieving in one week to work on proposals, thoughts and fields of action. We try to challenge our janijim to question themselves about the answers, actions and attitudes that they decide to take, both in their personal lives (as individuals) and in their role as madrichim (as “public” people).

Hanoar Hatzioni B'Uruguay, 2023.

Department of Latin America

The Latin America Department supervises, directs and regulates all activities, local and regional, throughout the continent. Our Shlijim (emissaries of Israel), present in several countries, are in charge of constantly accompanying our madrichim, bogrim and chanichim, bringing an adult, professional and focused vision to maintain Israel as one of the centers of the daily life of the Tnua. Our network of activities expands throughout 10 countries and 30 communities throughout Latin America, either in Kenim of Hanoar Hatzioni or in Kenim of our sister tnuot, all of them under constant supervision to guarantee a quality education.

In each of our Kenim, activities are constantly taking place, being the Sabbath day the main time for the groups to meet and where the madrichim can act as educators and significant people.

Once a semester we can see a series of special activities that take place locally, such as the Machanot (camps), Machon Choref (Winter Seminar), Machon Continental or special training. The Department is composed of Kenim spread throughout the Latin American continent: Uruguay (Hanoar Hatzioni), Argentina (Hanoar Hatzioni, Israel Hatzeira, Olam Beiajad and Sionista Parana), Brazil (Netzah), Chile (Tzeirei Ami), Paraguay (Hanoar Hatzioni), Peru (Hanoar Hatzioni), Colombia (Kineret and Yajad Barranquilla), Ecuador (Hanoar Hatzioni), Costa Rica (Hanoar Hatzioni) and Mexico (Hanoar Hatzioni, Dor Jadash and Beyajad Monterrey). The Department grows year after year, adding new communities and Kenim to our big family.

*Since 2023 we started a joint work with the OFAKIM tnua of the CIPEMU community of Punta del Este in Uruguay.

MCD 70, Argentina, 2023.

Regional Encounters

We conduct a series of continental events dedicated to providing a unique, educational and social framework in the continent. These events are not only a central aspect of the training process but also an opportunity for interaction and mutual learning between different countries, cultures and opinions. These events generate a dynamic of continental cooperation that enables us to act beyond the local influence of each ken.

Our main event is the **Machon Continental**, which is carried out in two different modules: Machon Continental Dromi (south) which takes place in January, and Machon Continental Tzfonni (north) which takes place in July. For over seventy years, this event has gathered Latin American youths from Hanoar Hatzioni's family who, during ten days, receive an intense, high-quality educational training, which represents an important milestone within the educational process that is developing in the life of every member of the movement. Although the Machon Continental is supervised by the Department of Latin America, the Tnuva's madrichim from across the continent are responsible for carrying out all the activities and managing the entire process of preparation, planning and execution of the event, always with the constant supervision of our Shlichim team.

In parallel to the Machon Continental Tzfonni, the traditional Machon Choref is held every year in South America, with the participation of more than 190 youths from Uruguay, Argentina, Chile and Paraguay, becoming in the last few years one of the most important regional seminars in the continent.

In addition, once a year, we organize an entrepreneurship and leadership seminar for all of our main leaders from the continent, called Seminar Bogrim Manhigim (SMB), whose educational activities are planned and executed by the Mazkirut Olamit and the team of Shlichim of the entire continent.

Manhigut Argentina, 2023.

Leadership Platforms

Manhigut

It is an innovative Jewish-Zionist, humanist and liberal platform that provides a space for activism, professional training and social framework for young people. Through this platform different educational initiatives and professional training are generated to train future leaders of the Jewish communities. This initiative is aimed at youth movements, schools, tnuot, universities and different Jewish institutions in Latin America and Europe.

Hanoar Hatzioni, through this project, is committed to take a leading role in the training process of the next generation of leaders, through updated educational resources in a young and modern environment.

Manhigut Movil

It is a platform created by the Mazkirut Olamit of Hanoar Hatzioni with the purpose of connecting young Jewish university students to different Jewish communities in Latin America with the objective of providing training to young people and adults in topics related to education, Tnuot noar, leadership, Judaism and Israel.

This platform allows for an enriching exchange and an opportunity for growth for the university students and for the participants of the activities. The mobile Manhigut program can be developed both virtually and in person. This project was successfully implemented in several Latin American countries in 2023 and will continue in the coming years.

Manhigut LeLo Gvulot

It is an activism platform for young university students who want to help populations or physical spaces that are at risk. This platform promotes the practice of fundamental human values for our movement, such as: solidarity, tikkun olam, "kol Israel arevim ze la ze", value to life, among others.

Under this project we have sent humanitarian delegations to Poland in the context of the war between Russia and Ukraine, groups of young people to Eilat supporting those displaced by the "Swords of Iron" war where they provided support to the displaced of the kibbutz "Ein Hashlosa", helped in the area of agriculture to areas affected by the war, and organized trips to delegations of chaverim and chaverot of different ages and places in the world to reach Israel and collaborate with the Israeli society in the places where it is most needed.

Chinuch la Mechanchim

Understanding the current complexity and the challenges faced by the new generations, it is important to generate synergy with other educational institutions that influence the educational and formative process of children and young people of the Jewish community.

For this reason we have created Chinuch la Mechanchim, an educational platform that proposes collaborative/cooperative work between non-formal education (tnuati) and formal education (schools), with the intention of strengthening and enriching the Jewish-Zionist identity of those who are part of the project.

Some of the tools that are part of this platform are:

- Creation of educational material on topics related to Israel and Zionism.
- Training for teachers on topics related to Israel, Zionism and education.
- Courses on Israel (past, present and future) as an integral part of the preparation process of groups prior to traveling to Israel.
- Planning and organization of study trips to Israel.

Shnat Hachshara Hineni, 2023.

Shnat Hachshara - “English Speakers”

What is Shnat Hachshara?

Shnat Hachshara Tnuatit is the optimal experience of studies and training for our bogrim, both in content and in tools, so that they can develop to become the future manhigim in their respective Kenim and kehilot. The thematic axis of our program is composed of chapters ranging from the most specific to the most general, thus offering an empowering experience.

“Shnat Hachshara” is an intensive, consolidating and unique year for its participants. Generations of members of the Hanoar Hatzioni Family come to Israel year after year to participate in this educational program. Today, members of the Hineni Youth & Welfare movement in Australia participate in this program, interacting with participants from other tnuot during the Machon LeMadrichim, and with other Hanoar Hatzioni groups throughout the program.

For the Mazkirut Olamit of Hanoar Hatzioni, the Shnat Hachshara Tnuatit program is the heart of a great educational process. We firmly believe that the experience in Israel is one of the most effective means of conveying our educational message and strengthening Jewish identity in the Diaspora.

Simple day-to-day experiences, along with continuous contact with the culture, language and people, allow participants to see beyond what is perceived at first glance, and thus be exposed to the different realities and dilemmas of daily life in the country.

Shnat Hachshara Tzafon in the MIC 3, 2023.

Shnat Hachshara - “Spanish Speakers”

The Shnat Hachshara Tnuatit program is a long-term educational, unique, intense and unifying experience for the youth of the family of Hanoar Hatzioni, who year after year visit Israel to participate in this program.

Shnat Hachshara receives approximately one hundred participants from Latin America and Spain per year.

The Mazkirut Olamit of Hanoar Hatzioni sees in Shnat Hachshara the ultimate experience of studies and training for our young members, both through the content as well as the tools provided for their development as the future leaders of their Kenim and communities.

The Shnat Hachshara Program is divided into three major sections:

MACHON OF MADRICHIM

Seeks to develop young, educational, Judeo-Zionist leaders, through formal and non-formal education methods, guided by content developed by the chanichim and a sense of commitment to themselves, their communities, Israel and the Jewish people in general. This section takes place in Kiryat Moriah and consists of courses, theoretical classes, workshops, activities and trips around Israel. As a part of this module, the participants travel to Poland for a week.

MEORAVOT KEHILATIT (“COMMUNITY INVOLVEMENT”)

Offers our young members the possibility of having a significant experience within the framework of Israeli society, as well as deeper access to the study and analysis of Israel’s most current challenges. In this section, the participants can choose between participating in Marva (two months in the army) and a program called “Drajim”, which is composed of courses and thematic trips across Israel.

MAVAT

An innovative, creative and original project that seeks to offer our young members all the tools and required resources for them to become change agents. In this section, the participants focus on planning projects for their return to their communities and Kenim, using all the tools acquired during this program.

Israel Challenge, 2022.

Israel Challenge

The Israel Challenge program is a modular program of Hachshara in Israel that offers a unique experiential experience for participants. Israel Challenge has 18 years of experience and more than 2000 young people have participated.

The program is divided into blocks and participants can choose various options within each stage to customize the program to their interests. The options include a Kibbutz stage, Tzahal enrollment with the Marva, entrepreneurship courses in Tel Aviv, paramedic courses in Magen Davd Adom, Mediterranean cooking courses and aquatic courses (Scuba Diving and Kite Surfing) in Eilat. In addition, we now offer the possibility of extending the experience with trips to Spain and Poland, where participants can connect with the history of the Jewish people.

One of the distinctive features of Israel Challenge is the possibility of getting to know Israel in an experiential way through the outings and tours. Knowledge of Israeli society and culture is deepened, fostering meaningful and creative encounters with young Israelis and volunteering to contribute to Israeli society. The program also focuses on current Israeli issues, getting to know the Start Up Nation from the inside, encouraging the learning of the Hebrew language and personal development in each of the participants.

This program is a personalized challenge in today's Israel and offers various life opportunities in the country, which provide alternatives to the existing plans for young people in the Diaspora.

Arevim Masa Year of Service 2022-2023 at "Save a Child's Heart" association.

Arevim

Arevim is a long-term program for people who are looking for a significant experience in Israel, helping society through social service. In Arevim, the goal is to work and interact with the most vulnerable sectors, thus generating a positive change. In addition, the participants will be able to enjoy the different talks.

The program comprises four major modules:

Social Service (Sherut Leumi)

The participants will be able to choose their volunteering program between different areas, having the opportunity to work in a professional environment in Israel and, as a result, learn about themselves and their abilities and explore fields of interest that can become real, long-term career options.

Israel Update

A space where different topics related to the Israeli-Arab conflict, politics and current affairs are covered. With weekly encounters in the form of talks or trips where the events take place, we will provide training with professionals so the participants can analyze, understand and reach their own conclusions regarding the Israeli society and the Middle East in general.

Courses and Seminars

We offer a series of seminars, courses and talks in various topics of general interest, such as an entrepreneur course where the participants can visit startups and large companies in Israel.

Chagim

As part of the program, we provide the ideal framework to feel and experience the holidays and memorial days like an Israeli: Yom Ha'atzmaut parties in the streets, a special Pesach Seder, Rosh Hashanah activities and Yom Kippur reflections, among others.

Made in Israel, 2021.

Made In Israel

MADE IN ISRAEL is a unique trip dedicated to experiencing the Israeli phenomenon in the labor, academic and experimental area aimed at young entrepreneurs, successful and dreamers, proud of the Jewish people and the State of Israel.

This is a chance to continue to develop professionally, with internationally recognized work and training experience.

Through our program, the participant will gain knowledge and experience that will provide important tools for their personal future. It consists of three principal fields: training, experience and work.

We will provide them throughout their stay with a Jewish, Zionist and pluralistic framework that will allow the participant to know all the “Made in Israel” products that have allowed Israel to be at the forefront of global development and innovation.

School Trip 2022.

Study Trips for Schools

In recent years, we have successfully stood out in the area of organization of end-of-year school programs in Israel. We work with different schools from around the world, offering both full programs as well as seminars during the trip or training days. We organize these activities for schools in Chile, Ecuador, Mexico and Turkey. In these trips, the participant will go through the different experiences whose thematic diversity will cover areas related to the culture, history and reality of the state of Israel. These programs are carried out by an expert in the field, always working along with the school, adapting each program to the needs of each school.

We see this trip as a unique opportunity where youths can get closer to their roots, foster their identity and strengthen the ties of the Jewish people to Eretz Israel. We aim to carry out an educational process which begins with preparation prior to the trip to maximize the personal and group experience of the participants.

The program will be based on four main thematic pivots, which will accompany us throughout the stay in Israel and will be handled in several perspectives:

- History and roots of the Jewish people
- History of Israel and the Zionist movement
- Israeli society – multicultural mosaic
- Technology and innovation, current events and Hasbara.

ISM (Intensive Seminar for Madrichim/ot), Tzevet of Hungary in Israel 2023.

The Madrichim Course

The Madrichim Course is an Israel-based training program for chanichim who are going to become madrichim in the near future. It is based on three educational pivots:

- 1) Experiencing the Israeli society
- 2) Acquiring tools for Hadracha
- 3) Learning about the Tnua's ideology and legacy

After going through this significant experience in Israel, these participants will return to their communities to be madrichim in their Kenim. In this program, you will experience the diversity that Israel can offer on a cultural level from the country's North to South.

It is a program of experiences which fosters the sense of group, of belonging to the Tnua and of the connection to the state of Israel. Every year, we organize delegations of future leaders and madrichim from Brazil (Tapuz), Belgium (Machane Israel), and Hungary (Manhigut Seminar).

Shlichim (Emissaries)

Hanoar Hatzioni stands out in the world of Jewish youth movements for its significant educational and community work through its Shlichim (Emissaries).

The concept of Shlichut – sending an emissary or representative to the Jewish communities – is one of the characteristics that have guaranteed our success in every aspect.

The Shaliach is an Israeli citizen who has extensive Jewish knowledge, administrative skills and broad experience in the fields of non-formal education and community work with groups of all ages. The added value of the Shaliach is his fresh point of view regarding the current situation and the Israeli society, which significantly brings the community closer to Israel.

The Shaliach usually works from the local offices of the Jewish Federation or the Community Center establishing relationships with representatives and community leaders. The goal of the Shaliach is to strengthen the Jewish and Zionist identity within the community, placing Israel at the center of his/her educational work.

The Shaliach operates in each community up to a period of three years, during which he works with various entities and community organizations, outlining strategic plans for the community.

The Shlichut in our movement is a joint project with the Jewish Agency, while the Shlichim are the official representatives of the organization.

Veida Olamit. Nes Harim, 2017.

“Haolamit”

“Haolamit” is the name we have chosen for activities, meetings or specific seminars in Israel that are of global nature.

Yom Hanoar Hatzioni

It is an event held in the summer for all programmes in Israel under the organisation of Hanoar Hatzioni.

This activity brings together more than 500 young people from our Thua, from all the countries in which we operate.

Veida Olamit

Every decade Hanoar Hatzioni’s family organizes the “Veida Olamit” (World Conference) with the aim of studying, discussing and deciding regarding the postulates, ideals and ideological arguments of the movement. Participants in the Veida Olamit are 200 representatives of all the Kenim around the world.

Veida Chinuchit

In parallel to the Veidot Olamiyot, Hanoar Hatzioni conducts Veidot Chinuchiyot (Educational Conferences), which allow us to learn from local experiences and occurrences, discuss the common and specific needs of each Ken, create new methodologies and educational materials, and most importantly, discuss among chaverim regarding this great educational family.

The main objectives of the Veida Chinuchit are developing and adapting the methodological and didactic tools that we can create and transmit in this incredible challenge of educating the next generations of leaders. In this event, 150 representatives of all the Kenim around the world participate.

Various events will soon be held in Israel and around the world to commemorate 100 years of Hanoar Hatzioni’s activity

Bama Olim B'Israel and Manhigut at the MIC 2, 2022.

Bama - Olim B'Israel

One of the greatest sources of pride for the Hanoar Hatzioni Family are the Olim Chadashim, who come to Israel in order to fulfill their national and personal aspirations.

The purpose of the Bama project is to adequately accompany all the Olim of the movement in the process leading to their immigration and in their first chapters in the country. In order to achieve this goal, we have established four supportive arrays, each one of them relating to a particular stage in the process of Aliya and absorption of the Oleh, but all of which are synchronized under the same project:

Before Aliya

The Shlichim and Pehilim staff, together with members of the Mazkirut Olamit, will guide the Olim on options for immigration, and help them get answers to their questions. In addition, the members of the Mazkirut Olamit will welcome the Olim to Israel and closely accompany them in their first months and assist them with bureaucratic, logistical issues or anything that may be required.

Soldierity

The Mazkirut Olamit, together with Bogrim of the Tnua, who have undergone military service, will take care of guiding the Olim with all issues related to recruitment to the IDF: how to prepare for the admission exams, accompaniment on recruitment day, guidance regarding professional courses in the IDF, adoption of lone soldiers, and guidance for release from military service.

Olimkedin

This initiative is intended for anyone looking for opportunities for professional development in the workforce. All Olim that are interested will receive professional guidance on writing a CV, performing in a job interview and be exposed to professional opportunities based on the movement's network of Olim and more.

Scopus Israel

This initiative constitutes a network of Bogrim of the Tnua in Israel and is in fact the main social framework of the Olim. Along with periodic social gatherings and special events that the Tnua organizes, there will also be regular updates on what is happening in the movement.

Board of Directors meeting of Friends of Hanoar Hatzioni- Geffen's Family House, Houston

Friends of Hanoar Hatzioni

With the aim of guaranteeing the continuity of our organization in the different Jewish communities of the world, we have created an international commission which we call “Friends of Hanoar Hatzioni”.

It is composed of ex-bogrim (former participants of the movement) and other related figures from all over the world who help us develop new perspective and projects to keep growing.

Faced with the challenges, dilemmas and difficulties of this new era, a key factor to facilitate our path is a group of experienced and trusted people who are dedicated to helping us achieve our educational success.

The actual President of Friends of Hanoar Hatzioni is Lily Uner, former member of Hanoar Hatzioni in Paraguay, and actual member of the Jewish Community of Ecuador.

ANDREA REPPi - Graphic Designer

asktoardesign@gmail.com

A person's arm and hand are visible on the left, holding a long wooden staff or torch. The background is dark and filled with a thick, blue-tinted smoke or mist. A very bright, out-of-focus light source, possibly a fire or a lamp, is visible on the right side, creating a strong glow and lens flare effect. The overall atmosphere is mysterious and dramatic.

WE ARE THOUGHT AND ACTION... IDEALISM
AND REALITY... HOW FAR WILL WE GO? WE
WILL NEVER ARRIVE, BECAUSE ARRIVING
MEANS STOPPING.
